PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in MERN stack development, with hands-on experience building and deploying full-stack web applications featuring authentication, RESTful APIs, and database-driven functionality. Strong foundation in Data Structures and Algorithms using Java. Seeking Software Engineer / Full Stack Developer internship and entry-level opportunities.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, SQL, Python (Basics)
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, REST API Design
- **Databases:** MongoDB, MySQL, Mongoose
- **Tools & Platforms:** Git, GitHub, Render, Cloudinary, Passport.js
- **Core Concepts:** Data Structures & Algorithms, OOP, CRUD Operations, Authentication & Session Management

PROJECTS

Airbnb-Inspired Property Rental System

Personal Project

- Built a full-stack MERN web application replicating core Airbnb functionality, including user authentication, property listing management, reviews, and image uploads.
- Implemented CRUD operations and session-based authentication using Passport.js to secure user accounts and manage listing ownership.
- Integrated MongoDB for persistent data storage and Cloudinary for scalable image hosting.
- Added interactive location mapping using Leaflet and OpenStreetMap to visualize property locations.
- Deployed the application on Render and managed version control and collaboration using Git and GitHub.
- **Tech Stack:** Node.js, Express.js, MongoDB, JavaScript, HTML, CSS, Bootstrap, Passport.js, Cloudinary, Leaflet, OpenStreetMap

ATM Management System (Java Mini Project)

Personal Project

- Developed a console-based ATM simulation in Java with 4-digit PIN validation and a retry-limit lockout mechanism for failed attempts.
- Designed a menu-driven interface supporting deposit and withdrawal operations with a running transaction summary counter.

INTERNSHIP EXPERIENCE

Java Developer Intern

Oct 2025 – Nov 2025

Saiket Systems

- Built multiple Java-based applications, including a Calculator, To-Do List, Banking System, and File Analyzer, to reinforce core programming concepts.
- Applied object-oriented programming principles, exception handling, and file I/O to deliver functional, well-structured console applications.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

Sep 2023 – July 2027

KLE College of Engineering and Technology, Chikodi (VTU)

- GPA: 8.63 / 10
- Relevant Coursework: Programming in Java, Data Structures & Algorithms in Java, MERN Stack Development

CERTIFICATIONS

Programming in Java

May 2024

NPTEL Elite + Silver Certificate, IIT Kharagpur

- Score: 80/100 · Duration: 12 weeks

Data Structures & Algorithms with Java

Sep 2025

Apna College

- Topics: Arrays, Recursion, Linked Lists, Trees, Graphs, Dynamic Programming

MERN Stack Development

July 2026

Self-paced Practical Training

- React.js, Node.js, Express.js, MongoDB, REST API, Authentication, CRUD Operations, Deployment
